

Silvia Scano

Full Stack Developer

Edinburgh, UK | +44 7495 152086 | scanosilvia75@gmail.com | silviascano.co.uk | github.com/Mifa75

PROFESSIONAL SUMMARY

Self-taught Full Stack Developer with hands-on experience building cross-platform web and mobile applications using React, React Native, and TypeScript. Passionate about creating clean, user-friendly interfaces and real-world tools that solve genuine problems — including a commercial allergen label printing application built to comply with UK Natasha's Law food safety regulations. Strong focus on maintainable, well-structured code and continuous self-driven learning across the full stack.

TECHNICAL SKILLS

Frontend	React.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
State Management	Redux Toolkit, Zustand, Context API
Backend	Node.js, Express.js, PHP, Python
Database	PostgreSQL, MySQL, Supabase (PostgreSQL + Auth)
Tools & Build	Vite, Expo, Git/GitHub, Jest, REST APIs, Axios/Fetch, React Navigation
Other	Responsive design, accessibility (ARIA/semantic HTML), agile workflows, Vercel CI/CD

PROJECTS

Allergen Label App [\[Commercial — Private Repository\]](#)

React 19 · TypeScript · Vite · Tailwind CSS · Supabase

- Built a commercial food label printing application for kitchen staff, fully compliant with **Natasha's Law** (UK/EU allergen labelling regulations).
- Features real-time 62mm thermal label preview, all 14 EU/UK regulated allergens as a checkbox grid, and auto-calculated use-by dates.
- Implemented full authentication (sign up, sign in, password reset) via Supabase Auth and a product library with CRUD operations.
- Designed for real commercial food preparation environments; printer integration in progress.

Staff Directory App [\[github.com/Mifa75/staff-directory-app\]](#)

React Native · Expo · TypeScript · Zustand · AsyncStorage · React Navigation

- Developed a mobile-first staff directory app for browsing, searching, and filtering employees by name, role, department, or location.
- Implemented favourites and recent contacts with persistent local storage via AsyncStorage.
- Built reusable employee card components, multi-screen navigation, and full dark/light mode support.

Gazetteer [\[github.com/Mifa75/gazetteer\]](#)

HTML · CSS · Bootstrap · JavaScript · jQuery · PHP · Leaflet.js

- Built a full-screen interactive map application integrating multiple third-party APIs to display real-time country-specific data.
- Designed and implemented RESTful PHP backend endpoints to handle API requests and data aggregation.

Portfolio Website [\[silviascano.co.uk\]](#)

React · TypeScript · Vite · Tailwind CSS · Framer Motion · EmailJS · Vercel

- Designed and built a fully responsive personal portfolio with dark/light mode toggle, smooth animations, and a working contact form.
- Deployed to Vercel with custom domain, Vercel Analytics, and automated CI/CD via GitHub.

TRAINING & EDUCATION

IT Career Switch — Full-Stack Developer Traineeship

2023 – 2025

HTML, CSS, JavaScript, React, Node.js/Express, PHP, MySQL/PostgreSQL, Python

Codecademy — Certifications

2024 – 2025

Full-Stack Engineer · Bootstrap · jQuery · PHP · Python

ADDITIONAL

- Currently building production applications with React Native and TypeScript.
- Exploring Next.js and Laravel to broaden full-stack capabilities.
- Comfortable working independently and in remote, delivery-focused environments.
- Languages: Italian (native), English (professional working proficiency).
